## PRICE COMMUNITY IMPROVEMENT PROJECT

**MISSION**— Price Community Improvement Project seeks to provide services, resources and programs to meet critical needs for individuals and families in the community and surrounding areas.

**STATEMENT OF NEED**—As the City of Los Angeles is rapidly growing and moving forward socially and economically there are critical sections of the population that must be served in order to provide every resident with equitable access and support to take advantage of these opportunities available due to this growth. The faith community has been a long standing leader and support in serving those labeled as “hard to serve”.

**PCIP** has key resources, facilities and networks to be an impactful part in meeting of these needs.

**IMPACT AREA**—Price Community Improvement Project seeks to be of service anywhere there are people to be served. Our primary area of focus is outlined within the following geographic boundaries also identified as the South Los Angeles Community as well as communities within the 90043 zip code and surrounding areas.

**HELP THE HUNGRY  
AND HOMELESS**

**COMMUNITY ACCESS and RESOURCE CENTER**  
PCIP serves as a community access point operational Tuesday thru Sunday during 10:00am-5:00pm. The access center includes an information desk that clients can come and research

various resources, programs and services, an emergency telephone line that can be used to contact the 211 emergency hotline, social security services or emergency needs. Additionally PCIP has wonderful classroom space and campus facilities perfect for community meetings, classes and programs.

**COMMUNITY ENGAGEMENT**— In order to keep engaged in community and create a platform to address issues at the local, state and national level, PCIP offers community discussions and events to rally residents around taking action to create sustainable change.

These events include:
